

## CHRISTINE NYE

### PAINTING ARTIST

Christine Nye is known for her inspired approach to art by splashes of color with unique style. Creating balance in a surprising way, she uses space to create beautiful, vibrant contours and vivid colors, reflecting nature in a very refreshing way.

In 1983, she received a BFA from Columbus College of Art and Design in Illustration and Advertising. Although, she enjoyed working as a graphic designer and illustrator for 20 years, her real passion has always been painting. After opening up her own design consulting firm several years ago, working with many different textures in faux finishing, advising clients on color and design, her love for painting and texture grew. So she started to paint, with acrylics as her medium and nature as her subject. Christine has sought to depict the movement and energy of color in light and nature, showing the simplicity of their forms and shapes in their true essence.
